AIRPLANE PARTS CATALOG

ARMY MODELS P-40K and P-40K-1
BRITISH MODEL KITTYHAWK III

"NOT LIABLE FOR ACCURACY, AND EFFECTIVENESS OF ORIGINAL TEXT."

NOTE: This Technical Order replaces T. O. No. 01-25CK-4 dated August 5, 1942.

NOTICE: This document contains information affecting the National Defense of the United States within the meaning of the Espionage Act, 50 U. S. C., 31 and 32, as amended. Its transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law.

U. S. P. & L. CO., CIN. 9-13-43 19M

SEPTEMBER 10, 1943

Published by authority of the Commanding General, Army Air Forces, and accepted by the Air Council of the United Kingdom.

THIS PUBLICATION MAY BE USED BY PERSONNEL RENDERING SERVICE TO THE UNITED STATES OR ITS ALLIES

Paragraph 5.*d.* of Army Regulation 380-5 relative to the handling of "restricted" printed matter is quoted below.

"*d.* Dissemination of restricted matter.—The information contained in restricted documents and the essential characteristics of restricted material may be given to *any person known to be in the service of the United States and to persons of undoubted loyalty and discretion who are cooperating in Government work*, but will not be communicated to the public or to the press except by authorized military public relations agencies."

This permits the issue of "restricted" publications to civilian contract and other accredited schools engaged in training personnel for Government work, to civilian concerns contracting for overhaul and repair of aircraft or aircraft accessories, and to similar commercial organizations.

LIST OF REVISED PAGES ISSUED

NOTE: A heavy black vertical line, to the left of the text on revised pages, indicates the extent of the revision. This line is omitted where more than 50 percent of the page is revised.

This issue contains no revisions.

ADDITIONAL COPIES of this publication may be secured on Requisition, AAF Form 102, as prescribed in AAF Regulations 15-102. Submit requisitions to: Commanding General, Air Service Command, Patterson Field, Fairfield, Ohio. Also, see T. O. No. 00-25-3 for details on distribution of Technical Orders. (Requests from Naval activities shall be submitted to: Chief of the Bureau of Aeronautics, Navy Department, Washington, D. C.)

III	Numerical Parts List	173-227

INTRODUCTION

1. This catalog lists and describes the parts for the models P-40K and P-40K-1 airplanes, the British designation for which is Kittyhawk III.

2. The Group Assembly Parts Lists, section II, consists of the complete airplane divided into nine groups as shown in the Table of Contents. The major assemblies and subassemblies of the complete airplane are listed in one of the main groups assigned for a particular assembly. The identation system makes it convenient to determine the relationship of the various parts to each other. Each assembly listed is followed by its component parts properly indented thereunder to show their relationship to the assembly.

3. Certain major assemblies are repeated throughout the catalog because each series of airplanes has its own assembly grouping. For example, the Power Plant Assembly in Parts List Nos. 28784 to 28796 is for one series of airplanes, and the Power Plant Assembly in Parts List Nos. 28797 to 28811 is for another series of airplanes. Asterisks preceding the part numbers of these major assemblies are used in conjunction with footnotes to indicate the series of airplanes to which the assembly applies.

4. For those assemblies and detail parts marked L and R, the number in the "Quantity per Assembly" column is the sum of the "Left Hand" and "Right Hand" parts. This number divided by two will be the quantity required for either the Left Hand or the Right Hand assembly.

5. The Numerical Part List, section III, contains the part numbers in numerical sequence. A cross-reference system to the Group Assembly Parts Lists indicates the Parts List Number where the part name is shown. In this way by locating the part number, and by use of the cross-reference system, the complete nomenclature and assembly name and number can be supplied when ordering parts.
