POLICY GOVERNING DISTRIBUTION AND USE OF THIS PUBLICATION

Instructions Applicable to Army Personnel:

1. This publication is intended for technical aid and education of military and civilian personnel engaged in promoting the war effort. Its maximum distribution and use is therefore encouraged. However, since the publication is "restricted" within the meaning of AR 380-5, the following security regulations will be observed:

a. *Members of Armed Forces and civilian employees of War Department* will be given access to this publication whenever required to assist in the performance of their official duties (including expansion of their knowledge of AAF equipment, procedures, etc.).

b. *Personnel of War Department contractors and subcontractors* may be given possession of this publication, on a loan basis, or knowledge of its contents, only when required to assist in the performance of War Department contracts. Releases will be made in accordance with the requirements of T. O. No. 00-5-2.

c. *Representatives of other governments* will be given possession of this publication, or knowledge of its contents, only in accordance with AAF Letter No. 45-6.

2. This publication is restricted because the information contained in it is restricted. It does not follow that the physical article to which it relates is also restricted. Classification of the materiel or component must be ascertained independently of the classification of this document.

3. Neither this publication nor information contained herein will be communicated to press or public except through Public Relations channels.

Instructions Applicable to Navy Personnel:

Navy Regulations, Article 76, contains the following statements relating to the handling of restricted matter:

"Par. (9) *(a)*. Restricted matter may be disclosed to persons of the Military or Naval Establishments in accordance with special instructions issued by the originator or other competent authority, or in the absence of special instructions, as determined by the local administrative head charged with custody of the subject matter."

"*(b)* Restricted matter may be disclosed to persons of discretion in the Government service when it appears to be in the public interest."

"*(c)* Restricted matter may be disclosed, under special circumstances, to persons not in the Government service when it appears to be in the public interest."

The Bureau of Aeronautics Aviation Circular Letter No. 90-44 contains the following paragraph relative to the use of aeronautical technical publications:

"Par. 8. *Distribution to All Interested Personnel.* In connection with the distribution of aeronautical publications within any activity, it should be borne in mind by the offices responsible for such distribution that technical publications, whether confidential or restricted, are issued for use not only by officer personnel, but also by responsible civilian and enlisted personnel working with or servicing equipment to which the information applies."

Disclosure of technical information in this publication may be made to representatives of foreign governments in instances where those foreign governments have been cleared to receive information concerning all equipment covered by this publication.

Instructions Applicable to British Personnel:

FOR OFFICIAL USE ONLY.—Not to be communicated to anyone outside of His Majesty's Service. Not to be published. The information given in this document is not to be communicated, either directly or indirectly, to the press or to any person not holding an official position in His Majesty's Service.

LIST OF REVISED PAGES ISSUED

NOTE: A heavy black vertical line, to the left of the text on revised pages, indicates the extent of the revision. This line is omitted where more than 50 percent of the page is revised.

V	SERVICE TOOLS AND LOOSE EQUIPMENT	311

1. This Technical Order is the Illustrated Parts Catalog for the Army models P-40M and P-40N airplanes, and the British models, Kittyhawk III and IV. This Catalog contains an Illustrated Group Assembly Parts List, a Numerical Parts List, a Standard Parts List, and an Illustrated Service Tool List.

2. The Group Assembly Parts List is arranged according to assembly procedure wherein a system of indentation is used to show assembly relationship of all parts. Any item listed in a given column is a part of and assembles on the item preceding it in the column to the left. L.H. or R.H. following the part name identifies the side of the preceding assembly to which the part attaches. The attaching parts of an item are listed following the details. Index numbers are used in keying the parts lists with the Illustrations.

EXAMPLE

On page 69, under Installation Cabin Controls, the following listing appears:

1.	87-25-570-1L	Rear Pulley Bracket Assembly	1
2.	87-25-570-1R	Rear Pulley Bracket Assembly	1
3.	87-25-581L	Bracket - L.H.	1
	87-25-581R	Bracket - R.H.	1

The L or R following the part number 87-25-570-1 designates that the part is either a right or left unit. The L.H. following the part name "Bracket" designates that the Bracket is a part of the left Rear Pulley Bracket Assembly only, and in no way distinguishes the part as a left hand unit.

The R.H. following the part name "Bracket", similarly designates that the Bracket is part of the right Rear Pulley Bracket Assembly only.

Leaders with more than one index number appear occasionally on the Illustrations. These series of index numbers occur when it is impractical to explode attaching parts such as a Bolt, Washer, Spacer, Nut, Cotter Pin, etc. In some cases when pointing to an assembly, the component parts are identified by added index numbers attached to the same leader.

3. The Numerical Parts List itemizes numerically all the parts of the Group Assembly Parts List, giving the total quantity of each part required for each plane and their page numbers in the Group Assembly Parts List. The order of precedence in the numerical parts arrangement is as follows:

(1) Space (Blank Column)
(2) Dash (-)
(3) Letters A through Z
(4) Zero (0)
(5) Numerals 1 - 9

As part numbers do not start with spaces or dashes, the order of precedence for the first character is as follows:

(1) Letters A through Z
(2) Zero (0)
(3) Numerals 1 - 9

4. The Standard Parts List contains a list of Army-Navy standard parts, Army standard parts and manufacturer's standard parts.

5. The Illustrated Service Tool List identifies tools, slings, covers, etc.

6. The explanation of symbols as used throughout the Group Assembly Parts List to differentiate between the P-40M and P-40N models are as follows:

P-40M	AF43-5403	-	43-5722	A
P-40M	AF43-5723	-	43-6002	B
P-40N	AF42-104429	-	42-104828	C

P-40N	AF42-105640	-	42-105778	H
P-40N	AF42-105779	-	42-105928	I
P-40N	AF42-105929	-	42-106028	J
P-40N	AF42-106029	-	42-106246	K
P-40N	AF42-106247	-	42-106406	L
P-40N	AF42-106407	-	43-23151	P
P-40N	AF43-23152	-	43-23251	R
P-40N	AF43-23252	-	UP	S

This Illustrated Parts Catalog is effective up to and including airplane AF43-23951.

Parts used in all ships are not coded.

In order to expedite the delivery of spares, the airplane model and serial number should be supplied when requesting parts. The exact position, function, and pertinent data contributing to adequate definition of parts, if supplied with request, may avoid delay in procurement.
